Subject: Letter of Recommendation

To Whom It May Concern,

It is my privilege to prepare this letter of recommendation for a company such as iNK WAVES LIMITED. They have been a supportive service provider for our Web Design, Graphic Design, Printing, Advertisement, Video and Photography services. During the past few years iNK WAVES has worked many major projects for Trinity Tech Inc. I must state that iNK WAVES team is honest, professional and hard working. They are also very knowledgeable of customer requirement, which allow them to bring up new ideas for our services. In addition, iNK WAVES staffs are excellent at their quality service and committed to the timeline.

If you are seeking a professional staff of people, at a fair price for Web and Graphics design, Printing, Video and Photography, I highly recommend iNK WAVES. The team, lead by its President & CEO - Mr. Suvendran Suren, is customer focused and will always go the extra mile to assure their clients and final customer are satisfied.

Should you care to discuss this letter of recommendation by phone or email, feel free to contact me at information below.
